

## Certificate of Conformance – Food Contact Material

This is to certify that glass bottles manufactured by **M/S. AGI GREENPAC LIMITED, Business Unit – AGI glaspac**, meet the following requirements:

- “Food Safety and Standards (Packaging) Regulations, 2018” issued by FSSAI for food contact materials.
- EU Directive Regulation (EC) No. 1935/2004 on material and articles intended to come into contact with food product.
- Confirming to USP Type-III glass and this type of the container glass is provided GRAS (Generally regarded as Safe) status by USFDA and hence suitable for food packaging.
- Requirements for glassware coming in contact with food as per IS 9806 : 2001 published by Bureau of Indian Standards.
- The general conditions set in the “Glass Specific Guidelines for Conformity Testing as Food Contact Material” (Final version on 7<sup>th</sup> March 2017) as developed by Glass Alliance Europe (GAE) - Food Contact Material Working Group.

This is applicable to all glass bottles manufactured by us i.e. Flint, Amber, Green, Blue and other special color bottles.
